## **Deductible Verification Form**

If enrolled in a Combination FSA, a completed Deductible Verification Form must be on file in order for a participant to be reimbursed for general-purpose medical expenses. Until a completed form is submitted, only expenses for dental, vision and preventative care are eligible for reimbursement.

What is a Combination FSA? A Limited Medical FSA (vision, dental and preventative expenses only) that's converted to a general-purpose FSA once a participant has met the statutory deductible.
